WORK EXPERIENCE

ICS Advanced Technologies

June 2023 – Present

Tier 2 Technical Support Advisor • Ames, IA

Seasonal & Part Time

- Used networking knowledge and diagnostic skills to troubleshoot network issues and loss of service — from the tenant device level up to network configuration issues such as network switch bugs and enterprise router firmware.
- Provided excellent customer service to customers over phone, email, and chat.
- Coordinated with property managers on maintenance requests, notice of access, and tenant management.
- Maintained schedules for multiple in-state and out-of-state technicians.

PetSmart

October 2018 – September 2025

Customer Engagement Leader • Clive, IA

- Used Medallia customer feedback (NPS) to execute new plans of action through employee training.
- Organized and promoted weekly adoption events with multiple pet-adoption partners.
- Organized and promoted monthly and seasonal in-store customer engagement events.
- Enforced monthly engagement and safety training for the entire store (~50 employees).
- As pet care department leader, enforced and maintained strict pet care standards through regular store, district, corporate, and Iowa Department of Agriculture audits.

EDUCATION

Iowa State University — B.S. Computer Engineering

2023 – Present

Ames, IA • Senior standing • Expected Graduation May 2027

- Fluent in multiple programming languages including Java, C, Python, VHDL, and more.
- CPR E 288 — Embedded Systems: Programmed a "CyBot" robot with a partner team to autonomously navigate obstacle courses or be manually driven from a map generated by a Python script using sensor data. Integrated infrared, ping/ultrasonic, depth, and bump sensors.
- COM S 309 — Software Development Practice: "CySchedule" - calendar application for Android, part of the front end team, used Java to implement application functionality, GUI, and websockets.
- CPR E 381 — Computer Architecture & Assembly: Designed three MIPS processors in VHDL from the ground up, including full adders, ALU, control unit, muxes, branch prediction units, and pipeline registers.

Arizona State University — B.S. Information Technology

2020 – 2022

Mesa, AZ / Online

- Coursework: Computer Networking, Relational Database Models (SQL), Programming (Python & Java), Operating Systems (Windows AD & sysadmin tools, Linux terminal & tools), Cybersecurity Essentials, and Technical Writing.
- Introductory courses established a foundation that continues to inform daily technical work.

VOLUNTEERING

CyMath — Math Tutor

May 2025 – September 2025

Iowa State University • Ames, IA

- Tutor grades 3–8 in the Ames School District through an Iowa State-sponsored program (led by Professor Viswani) that strengthens foundational math skills before algebra and encourages future STEM study.
- Collaborate with a team of graduate students, undergraduates, and ISU faculty.
